

# LINCOLN YARDS NORTH SITE DEVELOPMENT WORKS PACKAGE ONE

**ATTEND OUR MINORITY NETWORKING EVENT**

Sterling Bay Companies will be embarking on their journey to create the newest, vibrant neighborhood in Chicago – Lincoln Yards. The first bid packages for this project will cover the Lincoln Yards North area (see map attached) and will comprise of new CDOT infrastructure for over 15 acres of new construction. This phase of the project will include scopes of work such as demolition and reconstruction of roadways, new MWRD storm and sewer infrastructure, water main distribution, traffic signalization, dry utility distribution and infrastructure, parcel building preparation and general streetscape work.

The project will also include maintenance of traffic, grading, environmental compliance, clearing and grubbing, lighting, maintenance during construction, quality and safety maintenance, and other collaboration and cooperation with the contracting team to construct the newest neighborhood in the heart of the city while keeping surrounding area traffic congestion and impacts to a minimum.

**There is no vertical building work in this package. This is a civil/site work oriented package only.**

Walsh Construction is pursuing the Lincoln Yards North – CDOT bid package project and invites you to an informational session and networking event. Please join us to learn how you can be a part of this historic project to change the face of our city.

Light refreshments will be provided.
